

SELF DRIVEN ACTIVITY REPORT

Camp for Psoriasis

Title: Camp organized by NSS unit as well as Institution Innovation Council as Self Driven Activity in collaboration with Department of Panchakarma for the patients suffering from Psoriasis, a skin disease in and around Sankeshwar city.

Date: 30/10/2023 to 30/11/2023

Time: 10.00am -1.00pm and 2.00pm to 5.00pm

Mode of conduct: Offline

Number of patients visited: 35

Brief Description of the Event: Psoriasis is probably one of the longest known illnesses of humans and simultaneously one of the most misunderstood. It is an immune system disorder that primarily affects the skin but can involve the eyes, nails and joints also. It affects both sexes equally and can occur at any age. To combat this illness a camp was organized by SBSS Krishna Ayurvedic Medical College and Hospital, Sankeshwar Department of Panchakarma in collaboration with IIC as a part of Self Driven Activity. In this camp patients got free check up and medicines as well they were instructed to follow diet regimen.

This event was inaugurated by IIC President and Principal, Dr Manjunath S. Gavimath with the department of Panchakarma , IIC members, teachers and students.

Keyoutcome: Patients got free checkup and treatment along with panchakarma procedures.
